

UPDATE ALERTTRIGGER

Use this command to update the attributes of one or more alert triggers (wildcard allowed).

New with 8.1.7: CAtategory "**Objectclient**" - alerts for **Spectrum Protect PLUS** connections

Example:

```
tsm: SERVER1>query alerttrigger ANR2000E
```

Alert Trigger	Category	Administrator
ANR2000E	SERVER	

Update the **Category** to "DEVICE":

```
tsm: SERVER1>update alerttrigger ANR2000* category=device  
ANR4774I UPDATE ALERTTRIGGER command processed.
```

Result:

```
tsm: SERVER1>query alerttrigger ANR2000E
```

Alert Trigger	Category	Administrator
ANR2000E	DEVICE	

```
tsm: SERVER1>query alerttrigger ANR2000*
```

Alert Trigger	Category	Administrator
ANR2000E	DEVICE
